

Metabolomics Workshop

May 15-19, 2017

Learn how to collect metabolite profiles of your samples using gas and liquid chromatography coupled to mass spectrometry (GCMS & LCMS) in this 5-day workshop. Hands-on training focused on sample preparation, sample derivatization, data acquisition, and data processing will take place Mon through Thurs. Friday will be a symposium highlighting current metabolomics research.

Cost: \$363 for University of Missouri participants
\$495 for non MU academic institution participants
\$1,180 for industrial participants

Fees for MU participants are heavily subsidized!!! Fees include costs for 3 samples, users can bring additional samples at addition costs. See Program for more details.

Hosted by Dr. Lloyd W. Sumner and Dr. Zhentian Lei

To register: email Dr. Barbara Sumner, sumnerb@missouri.edu,

Space is limited to 25 participants, so reserve your space now!
